Material Spilled: Oil
Source Identification: Tank Farm
Surface Water Impacted: none
Date of Notification: February 11, 2004
Start Date: February 12, 2004
Completion Date: February 14, 2004

II. BACKGROUND INFORMATION

A. Site and Incident Description:

On February 11, 2004 EPA Emergency Response and Removal Branch was notified of an oil spill from a ruptured line in Bolton, Hinds County, Mississippi. Approximately 4:45pm on February 11, 2004 a collection line ruptured at a crude oil production field leaking approximately 1,000 gallons of crude oil to the ground and into Bakers Creek. OSC Gerald Foree was dispatched to provide oversight and direction as appropriate.

MS DEQ SOSC, Barry McMaster, initiated the response with environmental contractor USES. The responsible party assumed the response actions. Both MS DEQ and EPA provided continued oversight of the removal actions

B. Community Involvement:

None

C. Unusual Circumstances

None

D. Future Considerations

None

III. ESTIMATED COSTS:

A. Estimated Costs:

TOTAL SITE COSTS: \$1,000

Note: Costs shown are based on information available at the time this report was prepared. These figures should not be used to support or dispute any legal action regarding this removal.
